Case-study Instructions

- Answer each question in a maximum of 150 words.
- Responses should focus on the nominated surveillance implementation, its operational use and outcomes during the eligibility period from 1 April 2024 to 31 March 2026.
- Applicants are encouraged to support responses with specific examples, outcomes achieved and relevant evidence that accurately reflect the organisation’s implementation and results.

1. Describe the monitoring and situational-awareness need addressed by the organisation. Explain the sites, areas, assets or activities covered, the gaps or limitations in the earlier arrangement, and what differentiated the selected surveillance approach within the organisation’s operating context.

2. Explain how the surveillance solution was designed, implemented and operationalised. Describe the placement and coverage approach, recording and storage arrangements, monitoring workflows, implementation challenges, reliability, privacy, access governance, and how relevant personnel were enabled to operate the solution effectively.

3. Demonstrate the security and operational impact attributable to the surveillance implementation during the eligibility period. Provide relevant outcomes relating to monitoring coverage, incident detection, investigation or evidence retrieval, blind-spot or

downtime reduction, response effectiveness or operational efficiency, and explain how the results were validated and can be sustained or expanded.
